

Academic Support:

Parent and Community response to surveys called for more extensive academic support, including both after-school tutoring and summer school classes.

Rêve Preparatory Charter School's response to the survey request has resulted in extensive after-school tutorials offered to all K-5 students. Additional tutorial services have also been added for students during the school day. All services are provided by EMC Educational Services. An extended Summer School session will begin on June 20, 2022, ending on July 22, 2022, Monday-Friday. This session will welcome all current and registered in-coming students grades KG-5th grade.

Family Engagement and SEL:

In addition to the extensive academic requests parent and student surveys displayed a need for family wellness and social/emotional support systems. Rêve Preparatory Charter has partnered with Anchor Community Services for student social/emotional support. An additional partnership with Fuel Ed offers social/emotional support for all staff members of the Rêve Preparatory Charter School District. A school nurse position was added to the staff roster to assist in addressing student and staff illnesses. The nurse is also an addition to the social/emotional support.

Economically Disadvantaged: Transportation

One survey response requested services for those economically disadvantaged students who did not have transportation. Student transportation services were added in the 2021-2022 school year as an added support.
